Cantor Colburn Hires Patent Attorney Alex Tucker for Atlanta Office

Atlanta – Cantor Colburn is proud to announce the hiring of [David Alexander Tucker](#) as an Associate in the firm’s Atlanta office. Mr. Tucker, who goes by Alex, is a chemical engineer. Before joining the firm, he was an Examiner at the U.S. Patent and Trademark Office.

Mr. Tucker focuses his practice on drafting and prosecuting patents for mechanical and electrical innovations. He has experience examining a wide range of medical and healthcare technologies including patient data mining and stratification, dialysis device frontends, infusion pumps, medical lockout systems and patient compliance tracking. In addition, he has experience with patent issues relating to computer science and software, Internet and e-commerce and semiconductor devices and processing methods. Prior to attending law school, he was a Process Engineer at Shaw Energy and Chemicals, Inc. in Houston, where he focused on ethylene steam cracking, olefin kinetics and yield prediction, radiant and convective heat transfer, and acid gas removal. Mr. Tucker has dual bachelor’s degrees in chemical engineering and mathematics from the University of South Carolina – Columbia and a JD from Emory University Law School. He is admitted to practice before the state bar of Georgia and before the U.S. Patent and Trademark Office.

About Cantor Colburn

Cantor Colburn was recently ranked the fastest growing U.S. patent firm over the last ten years ([“Rainmaker Firms,” Juristat, February 4, 2016](#)). And in 2015, Cantor Colburn was #3 for design patents, #7 for utility patents, and #7 for trademarks in rankings of U.S. law firms ([“2015 Toteboards Published,” Ant-like Persistence, February 28, 2016](#)). No other law firm ranks higher in all three categories, and Cantor Colburn has been nationally ranked in these categories for more than a decade. The firm has also received national recognition for its Litigation Department. With highly specialized knowledge and in-depth understanding of clients’ businesses, the firm’s 120 attorneys and agents, working from offices in Atlanta, Washington, D.C., Houston, Detroit and Hartford, support technological innovations in a wide variety of industries, including software, aerospace, mechanical engineering, pharmaceuticals, telecommunications, biotechnology, medical devices, software, and chemical engineering.
