

Cantor Colburn LLP

Patent Attorney, Patent Agent, or Technical Advisor in Electrochemistry and Solid-State Materials -Multiple Locations-

[Cantor Colburn LLP](#), one of the largest full-service intellectual property law firms in the U.S., seeks a patent attorney, patent agent, or technical advisor to work in any of the firm's five offices: Hartford, Connecticut; Alexandria, Virginia; Atlanta, Georgia; Houston, Texas; Troy, Michigan. Remote work will also be considered. Cantor Colburn offers the full range of IP legal service and is a patent powerhouse: the firm is ranked #3 for utility and #6 for design patents and handles matters in virtually all technologies. Cantor Colburn is ranked #11 for trademarks and has a strong litigation practice, with practice groups dedicated to Hatch Waxman and post grant proceedings. The firm's clients are among the leading companies in the U.S. and around the world, including Fortune 100 companies, privately-held companies, select high-tech start-ups, government research institutes and university technology transfer offices.

The attorney, agent, or technical advisor will be responsible for preparation and prosecution of solid state and electrochemistry-related patent applications. In addition to all aspects of preparing and prosecuting patent applications, there is additional potential for patentability, state-of-the-art, infringement, and validity search and analyses.

An advanced degree or equivalent experience in solid-state chemistry, materials chemistry, materials science, solid state physics, or electrochemistry is required. Areas of study or equivalent work experience include the preparation and analysis of inorganic materials, or electrochemical technologies, e.g., batteries, fuel cells, or photovoltaics.

Attorney and agent candidates must be registered to practice before the U.S. Patent and Trademark Office and have domestic and international prosecution experience. Attorney candidates should also be admitted to a state bar.
