

**Patent Attorney or Agent in Organic Chemistry  
-Multiple Locations-**

[Cantor Colburn LLP](#), one of the largest full-service intellectual property law firms in the U.S., seeks a patent attorney or agent to work in any of the firm's five offices: Hartford, Connecticut; Alexandria, Virginia; Atlanta, Georgia; Houston, Texas; and Troy, Michigan. Working remotely will also be considered. Cantor Colburn offers the full range of IP legal services, with particular strength in patent matters: the firm is ranked #4 for utility and #4 for design patents, handling matters for clients in virtually all technologies. In addition to patent preparation and prosecution, Cantor Colburn offers counseling and representation in portfolio management, opinion rendering, due diligence in IP transactions, agreements and licensing, post grant proceedings and litigation services. The firm's clients are among the leading companies in the U.S. and around the world, including Fortune 100 companies, privately-held companies, select high-tech start-ups, government research institutes and university technology transfer offices.

Two or more years of experience as an attorney or agent drafting and globally prosecuting patent applications in chemical and material sciences, particularly in polymers or small molecules is preferred. The firm will offer training for candidates with less than two years' experience and candidates at all experience levels are encouraged to apply. A Ph.D. (preferred) or Masters in organic chemistry is required. Candidates registered to practice before the U.S. Patent and Trademark Office and attorney candidates admitted to a state bar are preferred.
