Cantor Colburn LLP is the #1 Fastest Growing US Patent Law Firm *Patent analytics agency Juristat measures growth over a decade*

For the last twelve years, [Cantor Colburn LLP](#) has been the fastest growing patent law firm in the country, according to patent analytics and research firm Juristat in its blog post, "[The 10 Fastest Growing Patent Law Firms](#)" (November 8, 2018). This is the second time Juristat has measured law firm growth and the second time that Cantor Colburn has been ranked #1. Significantly, Cantor Colburn is one of the largest overall utility patent filers over the last decade as well.

To determine the fastest growing firms, Juristat measured the growth rate in filings by firms from 2006-2016. Rather than looking solely at the *change* in applications filed from 2006 to 2016, the growth rate is a measurement of how fast the filings increased in size during that particular period. Cantor Colburn in the #1 spot came out ahead of 760 law firms experiencing growth.

Growth Rate of the 10 Fastest Growing Firms

In 2016, Juristat recognized "[The Rainmaker Firms](#)" (February 4, 2016), which measured Cantor Colburn as the fastest growing patent law firm "by a significant margin" from 2004-2013.

About Cantor Colburn
